## [Mind Map For Mac Os X](#)

The screenshot displays the BigHairyGoal application interface. The main window features a mind map with a central node 'As I am, i could' branching into three options: 'do this large thing', 'or immediately this possible thing', and 'or this most important thing'. These options lead to a node 'but whatever I am doing', which then points to 'it will be a great success'. A context menu is open over the 'it will be a great success' node, showing options like 'Sequence Cards', 'Select', 'Goto Next', 'Group', and 'Help'. A Kanban board on the right is titled 'In-App-Purchase: Extended Table Groups' and has four columns: BACKLOG (with tasks like 'fetch latest topic papers' and 'Call Dad on financing ussue'), READY (with 'Read Personal Kanban book'), DOING (with 'Reflections on Seminar'), and DONE (with 'Visit seminar' and 'Book seminar'). A 'My Photostream' window in the bottom right shows a grid of landscape photos labeled IMG\_2126 through IMG\_2133. The top of the screen shows the Mac OS X menu bar with the application name 'BigHairyGoal' and system status icons.
